JUST A PATCH OF SIXES IN BLOOM

FIELD SCENE SHOWING RANK GROWTH

GREETINGS

Another season has rolled around and we are pleased to offer to you again our Gladiolus bulbs.

May we take this means of thanking you, each and every one that sent us an order this last year. We have grown bulbs for 22 years and last year was our biggest year we have ever had.

We have this year added 14,000 square feet of storage space to our storage to enable us to still further improve the quality of our bulbs and with the largest crop we have ever harvested can only hope for your business again this year.

We are omitting the key chart on the older varieties which are well known to make more room for the many worthwhile new Glads that have made their appearance.

We try to grow only the better of the old and the best of the new, and if the variety that you are interested in is not listed, either write us or look around for a cause of it not being listed as there must be something wrong someplace. We have a test plot of several acres that we try to grow all the new ones that comes out and many more of them are discarded than are listed for one reason or another.

If you will follow the key chart that we started several years ago you will be able to get as accurate a description of the Glads performance as we can give you, as we change the ratings each year as we check everything as it grows.

We are giving a complete chart to each variety that we feel the traits are more or less permanently set in. However, some of the newer ones we have not grown long enough to be accurate on, and even a few of the older varieties change from season to season.

Our bulbs are all planted by hand, dug by hand, cleaned by hand, and graded by hand to insure you getting just as nice a bulb as can be produced. No more bruising than is necessary. Every bulb is removed that does not look just right, etc., all by hand, so that you receive only A-1 bulbs. Ask any of our customers, they can tell you.

PLEASE READ CAREFULLY

The letter first following the variety such as (K) and (Pf) etc. is abbreviation for the originator of that variety such as (K) Kundred, (Pf) Pfitzer, etc.

Everything we sell is fully guaranteed in every respect, and any error or omission will be promptly and liberally adjusted, if reported. You are at liberty to return any shipment if it does not fully meet your expectations, and purchase price, plus return charges, will be promptly refunded.

Safe delivery of all orders is guaranteed. This includes damages by freezing, so you need not hesitate to order in fall or winter. We will not forward shipments by mail unless weather is such that we feel they can go through to destination safely.

SECOND CHOICE, PLEASE

Sooner or later, some kinds and sizes of Glad bulbs will be sold out. Saves a lot of time and correspondence if you will kindly name a few varieties that we may send in case sold out of any on your order. Or at least mark your order sheet if we may send another size.

TERMS

Terms are cash with order except that, if desired, a deposit of 25% will hold order until March 1st, when it will be sent C.O.D. for any amount remaining unpaid at that time.

Charges will be prepaid on all shipments taken from this catalog (other than from wholesale list) to points in the United States. All wholesale orders F.O.B. Monroe.

DISCOUNT

On Orders Taken from Retail Lists

Will allow cash discount of 5% on orders of \$5.00 to \$10.00; 10% on orders of \$10.00 to \$25.00, and will give extras on all orders, so that our customers will all secure additional discount in the way of extra bulbs.

SPECIAL NOTICE

Do not split quantities as listed. Where a variety is listed at 2 for 15 cents do not order 1 or 2 at a lower price. There is no profit in any item of less than ten cents and very little at that price.

In the event that we are out of one size in a variety, we will substitute the next size in sufficient quantity to cover price, unless otherwise instructed. Just note on your order, "Don't Substitute," if you want sizes ordered only. We never substitute on varieties unless permitted to. Our aim is to please our customers.

EARLY ORDERS

Early orders are entirely practical and sensible. They insure your receiving the varieties and sizes you want, and they also secure for you the "pick of the crop," and they help us, by relieving our storage space. Many good Glads will be in great demand and hard to find later in the season.

While we like to ship in the fall, we will be glad to hold your order for later shipment if desired.

Please note carefully whether variety is priced "each" or "per 10" or "100".

Five may be ordered at the ten rate. Twenty-five at the 100 rate.

All stock offered and orders accepted subject to prior sale.

No order accepted for less than \$1.00.

TO LARGE BUYERS

Growers, dealers, etc., who can use large quantities of a variety or a good big order of different varieties of bulbs or bulblets please mail in to us the quantity and kinds you want, and we will quote you on the whole or at least what we can furnish. Chances are we can save you money. THIS IS FOR LARGE LOTS SO PLEASE DO NOT SEND IN LISTS OF A FEW BULBS FOR SPECIAL QUOTATIONS.

NEW GLADS FOR "41"

LOIS

Having been growing glads for twenty-two years and raising hundreds of seedlings each year only to discard them as not good enough, have at last one that we feel is a top notcher, and we present it for your approval—named after my wife—Lois—A pure self color flesh pink peach, growing to better than five feet tall under normal field culture with florets up to eight inches across with six to eight open and four to five more showing color. Disease free foliage broad and drooping allowing for a low cut. Bulbs disease free, plump and nice. Bulblet production very good.

This variety has attracted the attention of visitors to our fields for several years but due to very small stocks we have held up its introduction. Only a limited amount of stock will be disposed of this season.

Large Bulbs Only \$10.00 Each.

OUR MAILING LIST

Our mailing list is revised each year, as you well know it is useless for us to send you catalogues each year if you are no longer interested in Glads.

We are not stingy with our catalogues and will send you one if you are only interested and we know it. So there are two ways to let us know if you still want to remain on our mailing list. One is to send us an order, the other is to drop us a line asking for catalogues.

We do not expect an order from every one every year, so if you are still interested and do not receive a catalogue just let us know and we will send one P.D.Q.

THANK YOU

Don't think that we are ungrateful for the many fine letters than you send in to us telling us about our service, bulbs extras, etc., and expect sometime to find your letter as a testimonial somewhere in the catalogue. We do not believe in publishing such things and never have, but nevertheless we like to get your letters as well as anyone else. Each year we receive many letters telling us about our fine catalogue and its value to them. That is what we want and if you have suggestions that would improve the catalogue send them along as we are always ready to do anything that we possibly can for your benefit.

We have added several new features to the catalogue this year and hope they will be of benefit to you.

COLORED SLIDES

We got the bug this past season to try our luck at taking colored slides of some of the glads as they were in bloom so proceeded to purchase a camera and try it out. Was only able to find time to take three films but nevertheless succeeded in getting some pictures that look very much like what we aimed at.

These picture slides are available to any of our customers to show at any of their meetings at anytime free of charge. Just write us telling us the dates that you want them and if they are not in use we will be only too glad to send them on to you.

The following slides are available.
